

# SYSTEMS INTEGRATOR SUMMIT

a virtual event  
APRIL 21-22

## Day 2 | Thursday, April 22

### AGENDA (All times Eastern)

#### 1:00 – 2:00 p.m. **REMOTE-PRODUCTION FACILITIES: Trucks, Flypacks, and Centralized Production Systems**

As the pandemic has changed live sports production, facilities have been forced to evolve. Today, many broadcasters are using a mix of mobile units and flypacks onsite with centralized facilities back home. How will this impact the design and integration of production trucks and other onsite systems? Mobile-production-facilities integrators discuss how the production compound and the trucks within it are being transformed to meet today's needs.

**MODERATOR:** Ken Kerschbaumer, SVG, Co-Executive Director, Editorial

#### CONVERSATIONS WITH:

**Scott Nardelli**, NEP Integrated Solutions, SVP and GM  
**Joe Signorino**, NEP Broadcast Services, VP, Systems Integration,  
U.S. Mobile Units

**Paul Bonar**, Game Creek Video, VP, Engineering Solutions  
**Keith Martin**, Game Creek Video, Engineering Project Manager

**Nick Garvin**, Mobile TV Group, COO  
**Peter Wehner**, Mobile TV Group, Director of Engineering

**Alex Rybalko**, Gravity Media – USA, Director, Technology  
**Will Wright**, Gravity Media – USA, Director, Production and Content

#### 2:00 – 2:45 p.m. **DIGITAL MEDIA MANAGEMENT & WORKFLOWS: Orchestration, Postproduction, and Enterprise Media**

Whether you are a broadcaster, a team, a league, or a production house, the need for media-asset management and orchestration has never been more integral to success. However, digital media workflows are ultra-complex and require a variety of solutions from several vendors to account for ingest, postproduction/editing, archive/storage, security, MAM, and delivery. Media-workflow-solutions integrators address best practices in today's media landscape and how their role has become more important than ever.

**MODERATOR:** Jason Dachman, SVG, Chief Editor

#### PRESENTERS:

**Brent Angle**, CineSys, CTO  
**Roy Burns**, IMT, VP, Media Solutions  
**Liz Davis**, Diversified, VP, Media Workflow Group

#### 2:45 – 3:30 p.m. **CLOUD SERVICES & INFRASTRUCTURE: The Shift From On-Prem to the Cloud**

Many sports-production operations are shifting from a purely on-premises infrastructure to a hybrid cloud model that offers increased flexibility and scalability. As a result, systems integrators are faced with myriad new considerations when building the production and broadcast facilities of the future. Integrators, cloud-platform providers, and other experts discuss how the cloud is impacting the design of production facilities.

**MODERATOR:** Jason Dachman, SVG, Chief Editor

#### PANELISTS:

**Doug Price**, CHESA, Senior Account Manager  
**Dave Van Hoy**, Advanced Systems Group, President  
**Bruce "Zip" Zieper**, SOUTHWORKS, Business Development Director

#### 3:30 p.m. **LIVE SPEAKER Q&A AND NETWORKING ZOOM ROOM**
