

# REMOTE PRODUCTION WORKFLOWS

a virtual forum  
MAY 12-13

## Thursday, May 13 (All times Eastern)

### 2:00 – 2:15 p.m. **KEYNOTE: Fox Sports Vault Update: Workflows for MLB and NASCAR**

The Fox Sports Vault facility has become a core part of the sports production process during the COVID-19 pandemic and now it is in use for a second MLB and NASCAR season. Learn how the Vault workflows continue to evolve, what they mean for the Fox Sports production teams, and more.

**MODERATOR:** Ken Kerschbaumer, SVG, Co-Executive Director, Editorial

#### **PRESENTER:**

**Kevin Callahan**, Fox Sports, VP, Field Operations and Engineering

### 2:15 – 3:00 p.m. **IT'S ABOUT TEAM WORK: Best Practices and Technologies for Decentralized Productions**

presented by  grass valley  Haivision   nevision

Decentralization is one of the big trends in remote sports production, whether it is decentralizing a single team into multiple locations or even the technical infrastructure from control surfaces and operators. Learn about how to effectively decentralize your operations, key tools that can make a difference, and more.

**MODERATOR:** Brandon Costa, SVG, Director of Digital

#### **PANELISTS:**

**Michael Cronk**, Grass Valley, VP, Advanced Technology

**Sarita Meinking**, Fox Sports, Director, Field Operations

**Phil Myers**, Lawo, CTO

**Andy Rayner**, Nevision, Chief Technologist

**Marcus Schioler**, Haivision, VP of Product Marketing

### 3:00 – 3:15 p.m. **CASE STUDY: How NEP Group Powers Remote Replay Workflows with Haivision and EVS**

presented by  Haivision

This case study presentation takes a close look at how NEP Group uses a certified workflow with EVS replay and highlight solutions, Haivision video streaming technologies, and the open source SRT protocol to enable remote replay operation with low-latency, high-quality video. The session will explore the world of remote operations in live sports broadcasting and how new technologies help stream high-quality, low-latency, live video to replay operators anywhere.

**PRESENTER:** Marcus Schioler, Haivision, VP of Product Marketing

### 3:15 – 4:00 p.m. **TECH FOCUS: Remote Replay, Post-Production, and Graphics Workflows**

Capturing a live image is only part of the storytelling process in sports. Instant replay, editing systems, and graphics systems that allow for quick turnaround for bumpers, teases, and halftime highlights play a crucial part in bringing greater understanding and increasing the emotional impact of an event. Leaders in replay, editing, and graphics workflows discuss their tools and new features and capabilities.

**MODERATOR:** Kristian Hernandez, SVG, Associate Editor and Social Media Manager

#### **PANELISTS:**

**Jeff Gouch**, EVS, SVP, The Americas

**Karl Kathuria**, Never.No, Customer Solutions Director

**Steve McKenna**, Studio Network Solutions (SNS), Director

**Andrew Schenk**, MPE, Account Executive

### 4:00 – 5:00 p.m. **LIVE SPEAKER Q&A AND NETWORKING ZOOM ROOM**
